About Me

I'm a passionate full-stack developer with over 3 years of experience building web applications that make a difference. My journey in tech started with a curiosity about how things work, which quickly evolved into a love for creating elegant solutions to complex problems.

I specialize in modern JavaScript frameworks and have a keen eye for design, ensuring that the applications I build are not only functional but also beautiful and intuitive to use.

When I'm not coding, you'll find me exploring new technologies, contributing to open-source projects, or sharing my knowledge through technical writing and mentoring.

Education

Bachelor of Science Information
Technology
COLM

2022-2026

Technical Skill

Front End
Back End

- HTML, CSS, JavaScript, React
- PHP, Python, C#

Experience

- Freelance Web Developer
- Academic projects from your coursework
- Completed capstone project: Alone: An Interactive Horror Game Application Integrating Heart Rate Sensors for Adaptive Player Engagement And Evaluation.

Hobbies

- Music
- Playing Guitar
- Watching Movie
- Travel
